INSTITUTE

Mission

The mission of the European SPES Institute is expressed in the keyword of **SPES**, being on the one hand an acronym for ‘**SPirituality in Economics and Society**’ and, on the other hand, the Latin word for **Hope**, the virtue that sustains our belief in a better future.

Core belief

It is our belief that **actors** who are **spiritually motivated** and define **success** in **multidimensional** and **holistic** terms may **serve** the **common good** of nature, future generations and society.
